**DETAILED ACTION*****Status of the Claims***

Claims 1 and 3-8 are pending wherein claims 1 and 4-5 are amended and claims 2 and 9 are canceled.

***Status of Previous Objections***

The previous objection to claim 1 for informalities is withdrawn in view of the fact that in the recitation "at least one copper pool phases" in line 3 of claim 1 in the Claims filed 10 June 2008, a strikethrough of the "s" was made. The previous objection to claims 4 and 5 as being of improper dependent form is withdrawn in view of the Applicant's amendment to claims 4 and 5. The previous rejection of claims 1, 3-5 and 8 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention is withdrawn in view of the Applicant's amendment to claim 1.

***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: Reference characters 26, 27, 28 and 29 for Fig. 8 are not mentioned in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the

Art Unit: 1793

Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### ***Allowable Subject Matter***

Claims 1 and 3-8 are allowed.

Claims 6-7 are allowed for the same reasons as set forth in the Office Action of 28 August 2008.

The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose or suggest a molybdenum-copper composite having at least one copper pool phase in an amount in the range of 10 to 50 weight percent wherein the grain size of the copper pool phase is larger than the molybdenum particles and the average short diameter is 50 to 200  $\mu\text{m}$ .

#### ***Conclusion***

This application is in condition for allowance except for the formal matters indicated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).
